Primitive People's Weapons Found.

In the large amount of valuable material which Capt. Cromer has brought back with him from an island in Hudson's bay are many curious implements and weapons. The huge bone earrings with long pendants are primitive jewelry indeed. There are bows and arrows with fint points or heads, and harpoons of bone similarly pointed with stone. Combs carved out of dvory, walrus tusks, and many curious ivory ornaments and carvings are rare; pipes made of stone, bone needles, sinew threads, rawhide dog whips, arrow heads wrapped in intestine, and carried in this fashion to replace those that might be lost in the chase. They also carve in slate and stone, and some of the quaint little figures of polar bears, musk ox, reindeer and walrus, as well as of human beings, are interesting.

Want to Know Why News Paper has Ad. vanced 60 to 100 per Cent.

Washington, May 5 .- Representatives of the American Publishers' association have presented a memorial to the senate finance committee formally asking that some relief be afforded on account of the higher price of paper. The delegation said the association represented 22,000 papers. No particular legislation was advocated. The delegation was received by Senator Allison, acting chairman in the absence of Senator Aldrich. The resolution recited that the price of printing paper used by newspapers has increased from 60 to 100 per cent without reason or warrant to be found in the conditions of the industry, which was believed to be the working of a trust. The association appealed to congress to inquire into the conditions complained of, to the end that suitable legislation might be provided to remedy these conditions. As newspapers are sold at a fixed price, the resolution says, publishers cannot put the increased cost of the paper on the consumer, and in many instances this increased cost means the confiscation of profits and in others it creates actual loss

A copy of the resolution was presented by the delegation to the house ways and means committee.

Manila, May 7.- The insurgent archives discovered by General Funston include papers implicating prominent foreign firms at Manila in unlawful dealings. It is reported that evidence has been obtained that some of them furnished munitions of war to the rebels, and it is also said that the American authorities are in possession from this source, of a detailed plan for attacking the American forces, written by Aguinaldo, in the Tagalog language, January 9, 1899, and translated into Spanish by Buencamino. No correspondence from the so-called anti-imperialist party of the United States was found.

Court of Visitation Out.

Topeka, May 7 .- In a decision handed down the supreme court declares the law creating the court of visitation unconstitutional. The opinion was written by Justice Smith and is concurred in by Justice Johnston, Chief Justice Doster dissenting. The court of visitation was created two years ago for the purpose of hearing complaints against the railroads and other corporations.

Blood Hounds Tracked Them. Sabetha, Kas., May 7 .- Men suspected of having robbed the clothing store of Graham Bros., were arrested at Salem, Neb. They entered the store, but were frightened away by a pistol

shot from a clerk who was sleeping in the store. Bloodhounds traced them to Salem. Counterfelt Stamp Man Arrested. Washington, May 7.-Chief Wilkie has received a telegram announcing the arrest at Los Angeles, Cal., of Frank Luther, having in his possession a quantity of counterfeit postage

stamps with paper and a more or less complete outfit for making the same. Four With Winchesters. Fort Worth, Tex., May 5.-A report received here gives information of a quadruple killing at Quanah. Two of the men are Lute and Cage Beach, but the names of the other two are not known. The trouble originated over a grass lease. The men met on the pub-

lic thoroughfare with Winchesters, according to indefinite news received here. All four men are prominent cattlemen. The Beaches lived at Stephenville, Erath county. At Least 300 Dead.

Salt Lake, Utah, May 4 .- The reports from Scofield, Utah, say that it

is now known that 180 are dead from the explosion and that the estimate of loss will increase rather than decrease on further developments. The superintendent of the mine says there is no record of the number of men that went into the mine from day to day and that the exact loss cannot be known until all the bodies are taken out. The estimate is that there were 380 men in the mine and on that basis that there must have been at least 300 lives lost

Kausas City, Ks., School Burned. Kansas City, May 7 .- Seven hundred and fifty children, ranging in age from 7 to 15 years, were marshaled out of a burning school building in Armourdale without injury to a single child. This was accomplished through the coolness of the teachers who, in some instances by physical strength, checked the rush of pupils in the doorways and compelled them to pass out in single file. The building is known as the Armourdale school. It had fourteen rooms and was a two-story structure.

The largest company in America has alone a capital of \$125,-000,000, pays out yearly between \$8,000,000 and \$10,000,000 salaries, and last year carried over 60,000,000 messages.
